

Welcome to all our Students

Welcome and thank you for choosing to study at Plumpton College. This year has proven itself to be a challenge, but it is a challenge that we continue to rise up to meet. Whilst we have been partially closed since the Government restrictions were put in place, we have also been busy ensuring that we are able to provide you with a safe place to study.

Never before in our life times has our collective safety been brought into such focus as now. We know that you and your families may be concerned about returning to education and so we want to assure you that we have done all we can to keep you safe. Our collective safety requires all of us to play an active role in keeping ourselves and others safe.

We feel it is important that our students get a sense of the changes we have made and understand what being a student will mean at Plumpton College. There have been some important changes that are there for your safety and so it is incredibly important that you follow these new rules and adhere to the changes we have put in place.

One of these changes will mean that we will be advising all students that they must have access to their own laptops so that we can remove the risk that shared PC's present at this time. We understand that this may not be possible for all and we have put in place a scheme that will allow us to provide laptops to students who do not have access to their own.

To help you to understand what to expect, the following pages will give you an idea of:

- What being onsite at Plumpton will feel like
- Provide you with a sense of what your timetable might look like
- Outline what our residency provision will be
- Update you on what our new IT access provisions will be
- Provide you with an FAQ section that will be updated with new relevant questions

We hope you enjoy your time at Plumpton, we really are more than you expected.
