

Over the summer we want you to immerse yourself in some subject related tasks that will get you ready for your new course in **Animal Management**.

The below activities have been designed to keep you up to date with latest developments in **Animal Management** and come to college in September with some ideas and information to share with your new classmates and lecturers.

We do not require that you produce much physical work but we encourage you to keep some notes, perhaps a diary and where relevant take some photographs on your phone as a way of retaining what you have learnt.

Summer Challenge – Level 3 Year 1

Week	Task	Resources
1	Contact 5 different places you could gain your 150 work placement hours. This should be related to the animal management industry and allow you to complete work experience throughout the duration of your course.	A folder on your computer titled – Work Experience Contact. In this folder you should store copies of any emails or letters sent or notes of phone conversations and any replies you receive.
2	Post a picture of one of your pets or your dream animal and create a care plan for them to span a 3-week period. The care plan should include information on the following categories for each day of the week: <ul style="list-style-type: none"> • Food given and how much daily/each meal • Exercise • Cleaning / Grooming (where required) 	https://padlet.com/danyalrichardson/xz00imurgd6118h7

	<ul style="list-style-type: none"> Any other care required and how frequent. <p>Upload these to the padlet</p>	
3	<p>Visit the website https://explore.org/livecams and choose a live camera feed to watch for 5-10 minute and make a note of the different things you see the animal doing (eating, sleeping, playing, hiding etc) and why you think they are doing this.</p> <p>Repeat this process 3 times using the same camera feed where possible but at different times of the day, and then write a short summary of any differences you see and why you think this is.</p>	https://explore.org/livecams
4	Upload a random animal fact to the padlet and like any that you did not know about.	https://padlet.com/danyalrichardson/1lywsgo01ikn2ahk
5	<p>Animal Behaviour and Communication.</p> <p>Being able to understand animal behaviour and communication is very important when working with animals. Animals are able to communicate in different ways that can tell us how they are feeling.</p> <p>Complete the worksheet by matching the pictures to the behaviours being displayed.</p>	 <p>Summer Challenge week 5 worksheet.d</p>
6	<p>Go for a walk and take a picture of your favourite thing you see/something that makes you smile. This could be an environment, a habitat, an animal etc.</p> <p>Upload it to the padlet and add 2 reasons why this was your favourite and why you connect with this picture.</p> <p>Now comment on 3 other posts 1 thing you like about each.</p>	https://padlet.com/danyalrichardson/xo3tzktv9wgmo476
